Paper Poppin' Fact Finder

© Globe Trottin' Kids

1. Write a question (Q) and an answer (A) related to the topic in each section.
2. Follow the directions below or [watch our video](#) for folding instructions.
3. Share your **Paper Poppin' Fact Finder** with friends and family!

- Cut along the thick black line so that you have a square.
- Lay the paper with the words and numbers face down so you are looking at a blank square.
- Fold it in half from side to side, and then unfold it.
- Fold it in half from top to bottom, and then unfold it. You should now see four squares from the folding.
- Take the top right-hand corner and fold it to the center of the square. Do the same thing with the other three corners.
- Turn the paper over.
- Fold the top corner into the middle of the square. Do the same thing with the remaining three corners.
- Fold the paper in half from the bottom to the top of the square.
- Push in the top corners so that you have a place to put your thumbs and pointer fingers into the outer flaps.

And that's a wrap! Have fun!
